| | |
|-----------------|---|
| Course | BST&R Manual Handling |
| Date | To be determined |
| Duration | 03 hours and 35 minutes |
| Location | Stier Training Centre – Muelle Taliarte – Taliarte (Melenara) Gran Canaria, Islas Canarias |

COURSE OBJECTIVES AND CONTENT

Main objective

The aims of this BST&R Module are to encourage positive Manual Handling and ergonomic behaviour, encourage delegates to consider alternatives to manual handling through planning and to train delegates ability to perform Manual Handling tasks in a safe manner in the wind turbine industry/environment.

Especific objectives

This BST&R Manual Handling shall ensure that:

- The Delegates are able to demonstrate a problem-solving approach to Manual Handling in a wind turbine environment.
- The Delegates are able to demonstrate Manual Handling risk reduction techniques.
- The Delegates are able to identify aspects of their job tasks that could increase their risk of developing muscular/ skeletal injuries.
- The Delegates are able to demonstrate understanding of the importance of carrying out work duties in a safe and sound manner in accordance with the legislative requirements of their geographic work location.
- The Delegates are able to demonstrate understanding of safe practises of Manual Handling, including the correct handling of equipment.
- The Delegates are able to identify signs and symptoms of injuries related to poor Manual Handling techniques and have knowledge of reporting methods .
