

**BSTR FIRST AIDS - GWO**

<b>Course</b>	BSTR First Aids
<b>Date</b>	To be determined
<b>Duration</b>	1 day – 07 hours
<b>Location</b>	Stier Training Centre – Muelle Taliarte – Taliarte (Melenara) Gran Canaria, Islas Canarias

**COURSE OBJECTIVES AND CONTENT**

**Main objective**

The aims of this BSTR Module is to review and build on previously gained knowledge and skills from BST First Aid through theoretical and practical training so that Delegates can administer safe and effective First Aid, perform cardiopulmonary resuscitation (CPR) and use an automated external defibrillator (AED) in the wind industry / WTG environment.

**Specific objectives**

This BSTR First Aids Module shall ensure that:-

- Delegates are able to demonstrate understanding of the importance of safely and correctly carrying out First Aid in accordance with the legislative requirements of their geographic location and according to the International Liaison Committee on Resuscitation (ILCOR) e.g. European Resuscitation Council (ERC) and American Heart Association (AHA) guidelines.
- Delegates are able to identify and explain normal function, normal signs and symptoms of injuries and illness related to the human body.
- Delegates are able to demonstrate understanding and correct order of management in emergency situations in a wind turbine work environment.
- Delegates are able to demonstrate correct use of lifesaving First Aid using the Primary and Secondary Survey (“C”-A-B-C-D-E).
- Delegates are able to demonstrate correct use of an Automatic External Defibrillator (AED).
- Delegates are able to demonstrate correct use of First Aid equipment in First Aid scenarios

**CERTIFICATION**

International Accreditation GWO
